and if you like CC [Clerk@SteepleClaydonParishCouncil.gov.uk](mailto:Clerk@SteepleClaydonParishCouncil.gov.uk)

## Map for approved HGV & LGV (EWR & HS2)

HGVs are any vehicle over 7.5t. For the movement of bulk or large materials, these are likely to be predominantly 40t 4-axle wagons delivering granular materials and concrete as shown in Insert 1, but also include some other HGVs such as 40ft articulated lorries, low loaders delivering plant and extendable trailers delivering Pre-Cast Concrete (PCC) elements.

LGVs are any vehicle up to 7.5t excluding cars. They will be used to move small plant and materials around site as well as minibuses to move site operatives. These movements will predominantly be 3.5t and 5t dropside rigid pickups with crew cabs, as shown in Insert 2.

Typical 40t HGV for Granular Materials

Typical 5t LGV Site Pickup
